2022 – 2026

Score: 7.2

KEY PROJECTS

Community-Based Event Planning and Collaboration Platform

GitHub | Live Demo

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, Google Maps API, QR Code

- Developed a full-stack Community-Based Event Planning and Collaboration Platform using React.js, Node.js, and MongoDB.
- Implemented event management, volunteer coordination, QR-based attendance tracking, and role-based user authentication for seamless event operations.
- Integrated real-time communication features using Socket.io and Google Maps API and participant engagement.
- Built an AI-powered event recommendation system and analytics dashboard to improve user experience, event participation

AI Resume build

GitHub | Live Demo

Tech Stack: AI Resume Builder React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, JWT, jsPDF, html2canvas

- Developed a full-stack AI Resume Builder using React.js, Node.js, Express.js, and MongoDB Atlas.
- Implemented ATS-friendly resume templates with live preview, dynamic form generation, and PDF export functionality.
- Built secure user authentication using JWT and MongoDB, enabling users to create, edit, and manage resumes.
- Integrated AI-powered resume scoring, skill suggestions, and professional summary generation to improve resume quality.

Personal Portfolio Website

GitHub | Live Demo

- Developed a fully responsive personal portfolio website to showcase projects, skills, certifications, and professional achievements.

- Developed a fully responsive personal portfolio website to showcase projects, skills, certifications, and professional achievements.
- Implemented modern UI/UX design with smooth animations, dark theme, mobile responsiveness, and interactive navigation.
- Integrated project showcase sections, resume download functionality, contact form, and social media links for professional networking.
- Optimized website performance and accessibility using React.js, Vite, and reusable component-based architecture.

TECHNICAL SKILLS

Web Development: HTML, CSS, JS, REACT.js, Bootstrap, Tailwind CSS

Programming Languages: Python

Backend: Node.js, Express.js

Databases: MongoDB

Tools: GitHub, VS code, Git
